

Ready4Automation

Before you lose time, money, or control.

Why start?

- Because digitalization can also be simple, fast, and effective.
- We help you identify opportunities, leverage concrete drivers, and achieve immediate progress.
- Not a theory workshop – but hands-on practice with real substance.

What you get:

- A solid basis for decision-making
- Visible quick wins
- Clear visibility of your processes
- Realistic automation opportunities
- Concrete recommendations, straight from the analysis

What we do:

1. Pre-work <ul style="list-style-type: none"> • You provide information via template. • We analyze your information in advance. 	2. On-site workshop <ul style="list-style-type: none"> • We talk and engage with your team. • Identify real problems. Visualize processes. • Highlight bottlenecks and opportunities.
3. Analysis & Evaluation <ul style="list-style-type: none"> • Where are time, money, and energy wasted? • What is truly worthwhile? 	4. Tech-Check <ul style="list-style-type: none"> • Power Platform, RPA, AI – only if it makes sense. • Only what truly fits your needs.
5. Results: Clear document: What to do, why it matters, and what it costs.	

Data security guaranteed: We handle everything confidentially. NDA? No problem.

Testimonials

«The collaboration with Auximo was pragmatic and goal-oriented. The automation saves time and improves process quality.» — Michael Jäggle, Managing Director, Dierig AG

«Thanks to modern technologies, we save time & significantly increase the efficiency of our processes.» — Thomas Dvorak, Managing Director, WAHA Suisse AG

«The PowerApp from Auximo greatly improves our lead processing and saves a lot of time.» — Alain Rügger, Head of Sales & Member of the Executive Board, VC999 Packaging Systems AG

Ready to get started?

Whom should we reach out to internally to take the next step?

**Digitalization with strategy,
speed, and impact.**
